Quagga and Zebra Mussels are invasive mussel species from Eurasia that can clog water intakes, damage boats and equipment and impact aquatic ecology. Quagga and Zebra mussels spread primarily by attaching to boat hulls, fishing equipment aquatic plants, or in water contaminated with their larvae. They were recently discovered in Santa Clara County, San Justo Reservoir. To learn more, join Catherine Mandella, Environment Scientist with the Dept. of Fish & Game who will conduct a training session September 9th at UC Ag Extension Auditorium, 1432 Freedom Blvd., Watsonville, CA 95076.

SEPTEMBER PRESIDENT'S COLUMN

Our annual Tri-tip BBQ will be on September 6th at the East Lake Shopping center. Any and all help from members will be appreciated. If you can sell some tickets you can get them from Jim Ganthrup or Rodney Mitsumi at East Lake Hardware. We have the gate for the Cutter drive access point. And we need work party help to install it and put some new fencing. contact Fred Peirce at 688-9762 if you want to help.

We will be having a Halloween dinner dance on Oct. 25 and a Valentine's dinner dance in Feb. The Bugle mouth bass tournament may have to be canceled as the lake level is dropping fast and we may not be able to launch any boats. I didn't write a column last month so I would like to welcome the new members that were voted in by the board last month; Enrique DeArana, Chris Gillespie, Harley Gillespie, and Nathaniel Stewart, also voted in this month was Rob Linblad, Welcome to the Club!

For those of you that are interested, I strongly recommend that you attend the Quagga and Zebra Mussel training session on Sept. 9th, 11:00-2:30 at the US Ag Extension Auditorium, 1432 Freedom Blvd.

Please, direct any question about membership and dues to our club secretary, Steve Walker at 728-4977.
